

DDG
JOB DESCRIPTION: ARCHITECTURE INTERN

Overview

DDG seeks a motivated self-starter to join its design team to design and build uniquely crafted buildings that make a significant contribution to the built environment.

Responsibilities

- Assist with the preparation of construction drawings and detailing;
- Assist the design team on all phases of the project from pre-schematic through construction documentation; and
- Report to the project manager on a weekly basis to discuss progress on your work and performance.

Qualifications

- Currently enrolled in a NAAB accredited school for Bachelor's or Master's Degree in Architecture or equivalent in current country of residence;
- Proficiency with Revit, Adobe: Photoshop and Indesign, Rhino/3ds Max and 3d printing are preferred;
- Ability to develop, communicate and present design concepts;
- Ability to concurrently work on multiple projects; and
- Strong attention to detail.

Compensation

- Compensation will be competitive and commensurate with experience; and
- IDP sponsorship and credits.
