

PROBLEMS / OPPORTUNITIES

Mechanical Service Courtyard

Next to the hospital's mechanical courtyard entrance (off of Walkley) there is a small parcel of completely fenced greenspace which is presently no more than a useless appendage of the parking lot.

In winter this small space is used as dumping place for the snow that is cleared from hospital's parking lot. It is quite peculiar to see such a potentially valuable piece of land being used for such humble, useless ends.

UNUSED GREEN SPACE
